I 1849, in the "Beston Druly Tunes," and various other
nowspopers in the United States, by Sames G. Wilson, Esq.,
the owner of the "Woodworth Patent," shortly after I had
advertised my "PATENT STATIONARY CUTTER,
PLANINO, TO. GUEING, AND GROOVING MACHINE,
throughout the United States.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my odnion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of their true worth. I would state for the information of their true worth. I would state for the information of the enquirers that they will find substantially the machine new offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Benthan, in the year 1911. A like machine was patented in this country by one Knigler, some the tenty years since, and another one put up by Albert Richstrads of West 1709, N. Y., and shandowed shout the same time. It ought to astick the public to know that after fifty sight years experimenting upon these machines, not one in use to of any value for the purposes contemplated.

I will furthely a Stationary Knife, Machine squal to any now in use, or to any officed by the pretoding inventors, at the cost of the machine and five per cent for my brouble.

From Madison. EDITORIAL CORRESPONDENCE OF THE SENTINGE.

Madison, March 2, 1852. Mrs. Torrey and Troupe gave another Concert last evening, and were well received; the entertainment being better, and altogether more satisfactory than the one given on Wednesday evening. Mrs. Torrey's singing of the beautiful ballad "My Angel Boy," with which our readers are familiar, was received with the highest applause. Mr. Keeler's fine tenor, tho' slightly damaged by a cold, was much admired in his singing of "Rocked in the Crudle of the Deep." But one piece was sung in chorus, Messrs. Schirmacher and Wamelink, taking the principal part with their excellent instrumental performances.-The party left this morning for Watertown, and go thence to Milwaukee

About an hour was occupied on the opening of the ression, this morning, in the discussion of a brought up, and the House patiently voted down resolution introduced by Mr. Ricker, restricting all these propositions for delay, and at length the speeches to 5 minutes, except with the unanimous consent of the House. It was felt to be a very unjust move, and was thought to be intended to voting, but was refused; and Dr. Hovt sent up cut off debate upon the Northern Improvement | a protest, to be entered on the journal. The ayes Bill, which was made the special order for the morning, Mr. Barber having signified his intention to speak. The passage of the resolution was certainly urged by Mr. Lewis, who has been very strenuous in pushing the bill forward, but Mr. Peak denied that there was any such intention.-However, the resolution was amended so as to allow speeches of one hour, and in this form indefinitely postponed at the instance of the prover.-This gag move having failed, the House proceed-

ed to business.

Mr. Phelps presented sundry remonstrances an petitions relative to the Bridge War, and moved that all the papers in the matter be referred to the Judiciary Committee. The morning hour expired before his business was disposed of.
The special order being called for, Mr. Bather

entered upon an interesting argument in opposi-tion to the bill. He referred at first to sundry indignation meetings which have recently been held at places along the line of the Improvement denouncing Gov. Farwell in unmeasured terms for his refusal to sign Morgan L. Martin's scrip when, as these indignant gentlemen say, he is directed by the law to do so. Mr. Barber shewed clearly, by reading from the act, that no sucl requirement is made by the law, in any manne He described the sort of scrip brought here by Mr. Martin to be signed, with the coupons attached in the term of orders for 12 per cent interest upor he face, drawn by the Governor on the Stateall got up in a form seemingly intended to convey a false impression—and so carefully concealed that members of the Legislature had in vain endeavoied to get a single copy, to show its real form. He said that the law athorizing the contract with Mr. Martin, as involving appropriations from a trust fund, should have been, under the constitution, passed by yeas and mays, three fifths being present; while the journal shows that such was not the case. He defended at some length the report of the majority of the Judiciary Committee upon bill No. 120, which bill had beer drawn up by Mr. Martin, and introduced near the commencement of the session, but was so clearly outrageous and unconstitutional in many of its provisions, that their exposure caused it to be dropped, leaving its originators unwilling to inther their bautling. He insisted upon the point raised in the Report referred to, relative to the construction of the restriction contained in the grant by Congress. In support of this position he stated that Mr. Martin says that he diew the original grant, and that Judge Collamer and Mr. McClernand, then in Concress were entirely opposed to the bill, but that, by good management ic absence of the latter was secured, and Mr Collamer's support was gained, or his opposition stayed, by the proviso. And to show that the ntention was to carry on the work with cash, it was shown that Mr. Martin also drafted the law in the Revised Statutes, which provides that the aggregate amount of contracts let at any one time shall not exceed the amount of funds on hand; to which provision no attention has been paid.

objected to it because it proposes to mise the price of the land to \$2,50 per acre, contrary to both policy and right; the benefit proposed in allowing 10 years credit being specious but not real, inne much as it would extort a usurious payment from the settler, making the purchaser of an 80 account. tract to pay \$300 and over for it; and that, moreover, the State is morally bound by the resolution, accompanying her Constitution, and submitted to and approved by Congress, not to mise the price of these very lands. He objected also, that the bill does violate contracts made provious to that of Mr. Martin, and that these contractors are here protesting against its passage. Every law and subject shows that Mr. Martin took his contract with the express understanding that contractors, while this bill allows him to come in first. He saw no reason for any new legislation on this subject, and particularly he saw no such vast importance attaching to the work as should allow the Legislature to move blindly on, and involve the State. For himself, he was nearly inclined to view the projected Improvement as did the late Governor—as "somewhat of a hum-bug," so far as any ideas of national importance are concerned; and only important to a small sec tion of country.

As to the bill under consideration, Mr. Barber

After Mr. Barber had concluded, Mr. Root took floor, in favor of the bill. He had proceeded but lation, is the better liked, the more it is examina short distance in his remarks, when he gave way for a motion to adjourn. In that distance however, he had accomplished a very fair argument in favor of the right of the State to levy tolls on the Improvement, and had laid down the ground of defence of the Investigating Committee of which he was a member; to wit-that nothing wrong had been discovered as far as they went, and they had not time, or means, or opportunity to go further. He did not attempt to maintai that the Governor is under any legal obligation to sign Mr. Martin's new scrip, but that he ought to do so, in order to give ready currency and negotiability to the paper, and facilitate the completion

On reassembling to the afternoon, Mr. Botkin chairman of the committee on Ways and Means reported a bill authorizing the Governor to issue State bonds, having five years to run, at a rate of interest not over 10 per cent, amounting to \$60,-000, for the purpose of meeting extraordinary expenses, some 40 or 50,000 dollars having come over from last year, and standing first in proper order of payment. The bill was imperfect, there being no provision in it, as required by the constitution, for raising an annual tax to pay off the debt; and it was referred to the Judiciary Com-

mittee to be perfected. Mr. Root then resumed his speech in answer to Mr. Barber. His arguments were aimed to prove that the revenue from the lands, would be sufficient to build the work, and to set forth its great importance. He said that if there were a balance due Mr. Martin, the revenues of the improvement were pledged to him. As to the pledge of the ement" itself, he thought that it was not intended, and "must have get into Martin's contract by accident !" Dr. Hoyt followed on the same side briefly, and was again followed by Mr Shafter at considerable length, also in favor of the bill. He took the same ground as in his former speech, viz : that the work is in trouble, and must be helped out of it; and he did not think that the past mismanagement ought to prevent the Legislature from doing what it can to further the work He justified the Governor for refusing to sign the scrip, because of the coupons attached, and be-cause of the pledge of the Improvement. His speech was listened to with great interest, as were all of the others, and the day was not spent unprofitably, considering the great importance of the bill. Certainly it is as different from the first bill

the second. It is also very different from itself, as appeared when it came from the Senate. Still ere are objections not yet satisfactorily answer ed; objections which, perhaps, it may be safe to overlook in consideration of the necessities of the aso-but I don't believe it.

Mr. Shafter having concluded, there was a move bring the question to an issue upon the passage of the bill. But then, the preamble—the vil-lainous preamble—voted in by the House yester-day, on motion of Mr. Shafter, stood in the way. Mr. Ricker said that he would not vote for the bill, with this preamble, consuring as it did, the oast management of the work. Mr. Root arose and asked the unanimous consent of the House to vithdraw the offensive little slip of paper, and stated that Mr. Shafter was consenting to the proposition. Mr. McKee and others insisted that it should not be withdrawn, since it had been ussented to by the friends of the bill, to help it along. Mr. Lewis called for a division of the question, and that the vote on the bill should be taken first. Col. Botkin, who was in the Chair, declared this out of order, and an appeal being taken he was sustained by Ayes 36, Not's 14-the House generally being determined that the movers of the premoble should face the music. Then followed a nost of motions to adjourn, calls of the House &c, Ac.; the avening coming on, the lights were previous question brought the tender footed ones to a vote. It is only another evidence that Hereland has taken a fresh start and is growing note tapidly and prosperously now than at any amer period. The new impulse which has thus cen imparted is the result of judicious and liberal apponditures for Internal Improvements. Cleveand invested large sums in the Rail Road enterprises connecting her with the interior of the State, and althor these roads have only been in use a few months, they already vield handsome cturns in money, and much larger ones in the affuence they exert upon the growth, business

and prosperity of that city.

Milwaukhe has before her a future even more ertain and promising than that which already lawns upon Cleveland. We took occasion, some weeks since, to show that our city has aleady expended a large amount (upwards of six handred lousand dollars within the last two years,) in opening Rail Road and Plank Road communications with the interior. Every mile added to these roads, enlarges the circle of which Milwaukee is the commercial centre, and increases, in a onstantly growing proportion, the amount of usiness to be transacted here. We fully believe that if the City of Milwaukee had at this moment, a million of dollars at its command, it could make no more judicious, or more profitable investment of the money than by devoting it to the prosecution of the Rail Road to the Mississippi. The the State, within a twelvemonth, is already se cured, but our City and the friends of this great work ought not to rest satisfied, or to relax their efforts, till its completion to the Mississippi is rendered a "fixed fact." The day that sees that done will mark a new era in the history of our City and State, and give to both a fiesh start for-

aid in the race for empire. Another Demonstration.

It may be safely assumed that when the acts of It may be sately assumed that when the acts of a public efficer are the occasion of popular indignation meeting, throughout the country, his case is pretty far gone. Such is the state of things in relation to Gov. Farwell's high-handed course in virtually suspending the works on the Northern Improvement.—Commercial, of yesterday.

The Commercial is "ahead of the mail." No other paper has the news of these "popular indignation meetings throughout the country," or that the work on the Northern Improvement is virtually suspended." On the contary, the last Green Bay Advocate declares the work to be in active progress, and the Legislature have just passed a bill which its supporters declare will ensure its completion. The Improvement, therefore, may be safely pronounced out of danger. As to "Gov. Fanwent's high-handed course" in the nemises, will the Commercial specify what it means? How has the Governor "virtually suspended" the work? What wrong act has be done to provoke these anothernas? Where has he violated the law, exceeded his powers, or neglected his duty, in relation to the Northern Improvement?

R. R. Boxes.-The proposition to acceive Rail Road Bonds, as part scenrity for Banking circued. The received with great distrust, at first, by the Legislature, and rejected, when originally ofered, by a majority of three to one, it continued o gain friends, day by day, and was finally incorporated into the General Banking Law by si ajordy. We regard it as one of the very best eatmes in the bill, and so carefully guarded that abuse is hardly possible. The Kenosha Telegraph, adverting to this subject, says :

whatever may be thought of the measure at first sight, one can hardly see the propriety of compeling an individual to invest his property in Stocks of the States, or the U.S., before he can enter into the business of banking. It mil-road Stocks pay 12 per cent, per ammun, and U.S. Stock is bearing but 6 per cent, milread stock is twice as desirable as a means for investment. It is said that mil-road stock is as objectionable as may other kind of real estate—that depends upon circumstances which cannot be brought into the present account. We have no doubt but that it would be better for the interests of the State, for the present, that rail-road stock should be admitted as banking security within certain restrictions. It is not proposed to take it at its full cost, but so much stock for so many completed and working miles of read.

A New Paper.-We have received the first number of the "Spirit of the Times," a new and neat Weekly paper, published at La Crosse, on the Mississippi, by A. D. Ladue & Brother, late of Sheboygan. It professes democracy, and promises to uphold all measures, calculated to advance the interests of the great North West,-Our new contemporary, albeit the first paper ever published in La Crosse, and altho the skirts of the departing Indians, original lords of the soil, are yet visible in the distance, calls loudly for an immediate Rail Road communication with Madison and Milwaukee. Verily that is the "Spirit

of the Time-" Success to it! STATE PRISON CONVISSIONER.—The Govern as appointed Henry Brown, of Waupun, State Prison Commissioner, in place of the present in. cumbent, John Taylor, who has been removed. Mr. Taxton was the man who "ruined himself," according to the Commercial, to keep the prisoners from starving, and maintain the credit of the State. Pity to turn out such a self-sacific-

ing patrict. BLEAR House.-We shall publish another chapter of this enpital story in our next. We are not bill. Certainly it is as different from the first bill disappointed in the expectation that it would be introduced as well can be, and very different from eagerly sought after by our subscriber. Are we Jolly, on one we wor?—That the wivest and best men some times disagree, was first remarked, we believe, by a celebrated Roman Consul, but its truthfulness has received its latest Consul, but its truthfulness has received its latest illustration in the case of two eminent living Statesneen, each of whom is willing to be an American Consul after the Roman model. Mesers, Cass and Buchanan, have each recently made a public expression of their views of the condition and propects of the democratic party, from which we make the following extracts:

Gen. Cass in a Letter to young men of Balli-"The political prospects are so bright that they cannot but add to the social pleasure of the evening; for the decire has gone forth that the next administration of the general government must be in the hands of the democratic party." Mr. Buchanan in a letter to friends in Ballimore "If I rightly read "the signs of the times," then has seldon been a period when the democratic party of the country, to which you and I are warmly attached, was in greater peril than at the present moment."

Now the question is, is the democratic party in peril, or is it not? Are we infly or are we not?

Now the question is, is the democratic party in peril, or is it not? Are we jolly, or are we not? If the various candidates for the Presidency will give the public their opinions upon this critical question, it will greatly facilitate the selection of a candidate. If we read the signs of the times right, no man can be nominated at Baltimore who is not sound upon this question. A generous latitude will be allowed on every other, but there must be no dodging the issue here presented by these two eminent Statesmen. Is the democratic party jolly, or is it not?—Evening Post.

Mr. Brewer is charged in the complaint in the Folice Court, with laving robbed the Suffolk Bank.—The fact is, however, that he was followed on to New York by Connecticut officers, and when arrested by Messrs. At the time of his arrest, it is stated that he was about to sail for Europe in the steamship Asia, in company with Mr. Thorndike Rand, the bookkeeper of the Bank. As both of these parties left this city without the least intination of a journey to Europe, and as both left families behind, as is supposed in ignorance of their intentions, this movement alone caused both surprise and suspicion. It has not yet been ascertained that the Suffolk Bank has lost anything either by Mr. Raud or Mr. Brewer. When the Celt has crossed the Atlantic, he begins for the first time in his life, to consume the manufactures of this country, and indirectly to contribute to its customs. We may possibly live to see the day when the chief produce of Ireland will be catife, and English and Scotch the majority of her population. The nine or ten millions ions which led to the arrest of Mr. Brewer are based upon taughle evidence, we do not learn. Mr. Brewer was fornerly the messenger employed by the Connecticut banks to bring their packages of money to the Suifolk Bank, and was succeeded by Mr. Witter. After the robbery, but nothing came of his investigation. He is the son of the Cashier of one of the Norwich banks and came to the Suifolk bank highly recommended. Since he has been here he has stood high in the estimation both of his employers and his fellow clerks in the bank. Both he and Mr. Rand have been engaged extensively in stock operations—It is stated that Mr. Brewer made several thousand dollars last year by a rise in Canton stock. It is also well known that Mr. Rand has lest deeply by operations in stocks, the present year. Mr. Brewer, when arrested, had on his person about \$6000. This is in the hands of police, to a least \$6000. This is in the hands of police, to observe the Police Court on the charge made of his arrest here, he was told that he might either go before the Police Court on the charge made of his arrest here, he was told that he might either go before the Police Court on the charge made of his arrest here, he was told that he might either go before the Police Court on the charge made of his arrest here, he was told that he might either go before the Police Court on the charge made from various British sources, he frankly confessed, had worked a change in his optimion or the "Free Trade" policy, advocated so through in influential quarters. As an indication of his present the following paragraph, viz.

When the Celt has closed the following paragraph, viz.
When the Celt has closed the Aliantic, he becauded the following paragraph, viz.
When the Celt has caused the following paragraph, viz.
When the Celt has closed the following the manufactures of this country, and indirectly to contribute of the continue, the manufactures of this country, and indirectly to contribute of the found will be cautic, and Evilla and Scotch the major. Mr. It wa

reaction to American Industry—The most legitimate and effectual punishment we can inflict on John Bull for his tyranny and oppression to Iteland. Let us have a Tariff high enough to exclude the importation of all British Manufactures,"

clide the impotation of all British Manufactures,"

This sentiment was received by the company
with the most rapturous applause.

Mr. Costrax hit the nail of the head. The
Union deprived Ireland of the power to protect
her own manufactures, and made her the helpless
victim of the system which Dapland and Locofocoism call Free Trade. Before the Union, under
Irish protective laws, there were Irish woolen
manufactures, Irish carpet manufactures, Irish
blanket manufactures, Irish silk manufactures, Irish
cadico manufactures, Irish flannel manufactures,
and Irish stocking manufactures. The British
Parliament decreed their ruin and they'are extinct.
It decreed that Irishmen should buy their manfactures "in the cheapest market," meaning there-Another article of produce we would mention, although it requires a few years to establish it, is the culture of layes. After the third year the hop yields a profit, depending however upon the demand, which is very fluctuating. A friend of ours in Liston, Waukesha county, sold hop to the value of \$1200 from six acres, and another individual in the south part of this county, sold \$1200 worth from four acres. These were extraordinary prices, but at the common sale price, hops are a profitable article of culture.

The culturation of tobacco has been recommended, but aside from the peculiar culture, the curing of tobacco, by the ordinary farmer, would be an uncertain matter, and upon its proper handling in that operation its quality greatly depends; we therefore think that this article will not be raised to any great extent.

The past season pork has brought a fair price and we see no rease a why it will not be so another season. It has been satisfactorily ascertained that we have a summer that the summer through the first man factures "in the cheapest market," meaning there by, where they could for the time being be bought for least unone, that is in England, and that Irelands should raise liveadstuffs and other agricultural products, with which to pay them. England was to be the great work-shop, and the Irishman for least money, that is in England, and that Irelands should raise liveadstuffs and other agricultural products, with which to pay them. England was to be the great work-shop, and the Irishman was to be compelled to be its customer. In short, if also insist that this country ought to look to England as its work-shop, and in this way obtain the privalence of sending its grain across the occur to be cate, instead of having it eaten at home. The Wing party maintains the American protective policy, the same policy preci-cly as Ireland mantained so long as it had the power,—Rochester, (N. Y.) Denocrat.

general of the state, the former stipulating that as
soon as the banking law is adopted by the people,
the company shall either organize under the law,
or discontinue the business of banking. We
thought when the procedings were commenced,
that it was an unfortunate time, just on the eve of
the adoption of a general banking law, and during the utmost stringeney in the money market,
to do anything that would destroy or even weaken
the public confidence in an institution that has
been conducted on safe, fair and honorable principles; and we are of the same opinion still. The been conducted on safe, fair and honorable prin-ciples; and we are of the same opinion still. The establishment of such institutions ought to be re-sisted, if possible, prevented, but when they have once gained an existence, and have been con-ducted in such a manner as to neet the approba-tion and gain the confidence of business-men, when as in this case, they furnish the only reli-able currency we have, and when the winding up of their affairs, would be infinitely more disastrous to the people of the state, than to the company; taking every circumstance connected with this matter into consideration, we cannot commend the action proposed to be taken.— Janesville Gaz.

We are happy to announce that Gen. Wm-R. Smith, who had lain at the point of death for some weeks in this town, has nearly recovered from his dangerous illness, and will probably be able to commence the history of Wisconsin, as provided for in a bill now before the legislature, immediately after the passage of that bill, which will undoubtedly be very soon.—Madison Democrat.

Lewis & Co., importers of woolen linen, and British goods—building and contents totally destroyed, loss estimated at \$250,000. The stores of Gihon & Co., Wythe, Rogers & Co., importers of iace and fancy goods, totally destroyed; the lors of the former is \$150,000, and of the latter \$100,000. The store of Stewart & Brother, No. 12, had a stock of \$400,000 and their loss is \$300,000 principally French goods. The silk store of Davis & Co., No. 15, was damaged to the amount of \$5,000. All the losses are fully covered by insurance in the New-York, Philadelphia and London offices. The stores were very large, and all run through from Bank etreet to Strawberry alley.

Mas. Torrey and Thours.—Here are the elements of a most popular band of musical artists. They have but just commenced giving concerts, but are already winning golden opinions. Messra. Schitmacher and Wamelink have few equals and no superiors, on the violin and piano. Mrs. Torrey has a rich-toned voice over which she has the most perfect coronand. Her performance is absolutely delightful. Messra. Torrey and Keeler excel respectively in the comic and sentimental, and are a couple of as good fellows as can be found We shall long remember their visit here with pleasure.—Janesville Gazette.

The want of such a work has been soverely feet by all who have crossed the plants. Much auffering and lots of teams have been occasioned, for want of a knowledge of the distances from grass to grass, and from water to water, and for proper directions to find good casping places. This book contains addied upon all these points in full has as to the best roads and short cuts, by fellowing which, much fracel and labor may be saved.

The following is an ostract from a letter written by Mr. J. P. Welsh, of Milwaukes, who mads the overland trip in 1891. He took with him a copy ofthis nork and says:

"In regard to the 'guide' you furnished me, it has proved here accurate, and been mainly depended upon, though we had Mormon and other guides, some quide, minute and extensive. Even some persons, who had 'Gone crossed, asked for copies of part. For Sile by S. CHAPMAN, Rast Water St. and B. B. BRD, Wiccondin St. April 2: 36-29. · · · COPARTNERSHIP. THE Directors of the Empire Insurance Company feel confident that the plan of Insurance adopted by them will meet with a leastly response from a discretizing public. Our Claster and By Laws require that the applications received shall be divided into two or more classes. Dwelling Houses, and property of similar hazard, only, can be insured in the First Class, excluding Taverra, Work-anops, School-houses, Schinaries, Churches, and other kinds of hazardous property, usually taken in the so-called "Farmuer's Companies," or "Faturer's Departments." This will reduce the Estimase emphaticality of Fature at Contact."

They attend for the judgment of their fellow chilans the following summary of their plan of operations:

1. Folicies will be divided into distinct Classes, the funds of each class being leept separate, and each paying its own losses. The notes given in one Class are not liable for losses the poning in the other than the pottern, pay adefinite sum in full for his insurance, in lieu of giving his note.

2. Any applicant may at his option, pay adefinite sum in full for his insurance, in lieu of giving his note.

3. The First Class to consist of dwelling louses and other farm buildings and personshroperty therein. Not more than two-thirds of the value of any building to be insured to its cash value.

4. The Second Class to consist of Churches, School-hou-

salt value.

4. The Second Class to consist of Churches, School-houss, Seminary buildings, Works-loop, Taverns, Stores, Seminary buildings, Works-loop, Taverns, Stores, tilis propelled by water power, &e, and personal propers therein.

5. Not more than \$3000 will be taken in one risk.

6. Steam Mills of all kinds, Distillarles, Cotton and Woodn Factories, Powder and Oll, Mills, Furnaces, Machino hops, and other extra hazardous property will not be tagin this company. en in this company.

7. This Company will hold itself responsible for the cor-ectness of all surveys and other off cial acts of its author-ted agents, thusening all carlies to the technical correct-ress of surveys, and the consequent liability of the Com-any. ixed agents, thusending all cavil as to the technical correctmess of surveys, and the consequent liability of the Company.

8. Any policy-holder may at pleasure withdraw from
the Company by paying his share of the losses up to the
time of such withdrawal.

9. This Company will adjust all claims with promptness
and liberality, and if at any time a shifterence-shall arise between the parties, the same may be settled by a mutual reference in the county where the loss shall have occurred.

10. Additional Stores may be set up, or moved from one
rocen to another, without giving notice to the Company,
also, such repairs as do not increase the hazard of the
property, need not be notified.

11. This Company will pay losses caused by lightning,
whether the buildings are burned or otherwise duraged.

12. Should my more money be collected than sufficient
to keep the company in a sound condition, it will be returned to the policy holders in proportion as each shall
have paldin.

The Directors, in soliciting patronage for the Empire Instrance Company, do so in the firm consistion that the
plan will be found as CHLAP and SAFT as any company
can be made. In arranging, their Races of Hazard, and the
kinds of property to be insured in each class, they have
sought to secure sufficient each premiums to meet all loss,
es; lasing by the small notes, taken as a Reserve Fund,
which shall render the Company perfectly safe against all
contingencies.

For a more definite and full view of their plan of opera-

contingencies.

For a mure definite and full view of their plan of opera-tions, they respectfully invite an examination of their liste-of Hazard and Classification of Property to be insured.

'In all cases,' he says, "digestion occurred as perfectly in the attificial rain file natural digestions."

Br. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 355, says, "It has been a question whether strilled digestion could be performed—but it is now university attended that it may be."

Dr. Carpenter's standard work or Physiology, which is in the library of every Physician, and is used as a Text-flood in all the Colleges, is full of evidence similar to the agove, especific the remarkable Digestive power of Peptia, and the fact that it may be readily separated from the stomach of the after that it may be readily separated from the stomach of the caff or ex, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and dediction secretion of Gastric Juleo.

Il modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Deticiancia, sie secribe the cheracter and properties of Physics, and state many interesting deaths respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juleo, perfectly recurribing the natural duda may be readily proquered, does not admit of question. The only wonder is, that it has not hefore been pupils to the cure of indigention and Dy specyla—sor naturally does such a use suggest teelling the attack.

from which the abore cut was taken. By it we can take the exact shape, and unoringly fit the most inegular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the Casu System (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of \$1.25; surpassing any \$5 Hat sold in this city. Our Hots are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. we invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.

THE HUMAN FRAME

PAIN PAIN

Disorganizes the whole system, it province the nerves, it releases the muscles, it wakens the joints, it interfers with the functions of every organ, it checkes the free and healthy circulation of the blood, it paralizes the absorbents, and renders them modele to take up and replete the water form with sound material. From the every moment that this beautiful materpiece of God becomes afflicted with pain, the inhuence is experienced throughout the whole system, no matter in what particular locality the pain may originate; whether in the Bleach, the Gums, or the Stomach; whether it arise from internal derangement, or is the result of external injuries, still the pain exercises it influence throughout every portion of the human system.—Not a nerve or a muscle secapes its provincing influence. INSTANT RELIEE FROM PAIN.

In a few seconds
WILL STOP THE MOST DISTRESSING PAINS.

Its effects are like electricity; it arrests the most distressing panes in a few seconds, its soothing, neutralizing and healthful influences thrill through every minute cell, membrane, and exabilishes the secretion of every gland in the system, subdoing the most execuciating paroxy am of pain, and imparting strength and vitality to every organ.

PAIN STOPPED INSTANTLY.

Pale and Paint Stopped in STANTLY. Radnay's Realy Relief possesses an atmost miraculous influence over the sharp deriling pangs of pain of this crue frompaint. In a few minutes the pain-stricken sufferer experiences the delightful sensations of departing pain. It is control thousand of cases. In the city of New York where many of them had been brought almost to death's door. The effects of the Ready Relief is to stop the pain mediately to strongthen the nervous system, and supply the nerves with mersons energy and visitily, the loss of which is the chief cases of nervous pains.

DANGEROUS PRACTICE: The use of Morphine, Strychnine, Acondine, Belledonna arrier, and other polsons are not only dangerous but cruise, and other polsons are not only dangerous but cruise, in the effect of these polsons is not to cure the disease, it to remove from the system the pains, but to deader the crues, to teaken and stop lie nervous energy, to paralyze the functions of the nervous system, and to destroy sensation. It this practice is continued for any length of time, the attent will not only waste away, but the brain will become aralyzed, and the intellect destroyed.

RADWAY'S READY BELIEF IS TREE TROM MORPHEN, in fluence.
